Re: Freedom of Information Act Request EPA-R9-2015-000346

Dear Mr. Cole:

This is in response to your Freedom of Information Act request regarding:

The Sacramento Office of the EPA has been actively involved with the Corps of Engineers in Reno (and elsewhere I assume) in reviewing a permit request from the Reno Transit District (RTC). The permit request is for Phase 2 of a proposed roadway commonly called the SE Connector From Sparks to south Reno.

Our non profit coalition is requesting copies of all correspondence to and from EPA (to any person or organization) on this subject from June 1, 2014 to the current date. If it assists EPA, I can come to Sacramento to review the correspondence prior to making copies so we can limit the copying to only the documents we feel we need.

Information responsive to your request is enclosed.

If you have any questions, please contact Leana Rosetti of this office at (415) 972-3070.

Sincerely,

A handwritten signature in black ink, which appears to read "Jason Brush", is positioned above the typed name and title.
